RE: BioOne Accessibility Evaluation

BioOne thanks the Library Accessibility Alliance and Michigan State University's Usability/Accessibility Research and Consulting (UARC) for the time, effort, and detail put into their accessibility evaluation of BioOne Complete's platform and content. As a non-profit dedicated to making scientific research more accessible, we take this need very seriously. Therefore, we are actively working to improve BioOne Complete's site to address the areas of concern identified in the evaluation. We look forward to updating the Library Accessibility Alliance and our users of our improvements.

Please direct your questions about BioOne and our efforts to improve BioOne Complete's accessibility to Caroline Breul at caroline@bioone.org.
